LIQUIFILM® TEARS
polyvinyl alcohol 1.4%
Manufactured by:
Allergan Pharmaceuticals Ireland, Westport, Ireland
© marks owned by Allergan, Inc.
LIQUIFILM® Tears soothes and lubricates the dry eye and is useful as an eye drop throughout the day to provide greater comfort and longer wearing of hard contact lenses. LIQUIFILM® Tears acts as a supplement to your normal tears.
Each mL contains:
LIQUIFILM® (polyvinyl alcohol) 14 mg, benzalkonium chloride 0.05 mg (preservative), sodium phosphate dibasic, sodium phosphate monobasic, edetate disodium and purified water.
INDICATIONS
For use as a lubricant to prevent further irritation or to relieve dryness of the eye.
WARNINGS
To avoid contamination, do not touch tip of container to any surface. Keep container tightly closed. If you experience eye pain, changes in vision, continued redness or irritation of the eye, or if the condition worsens or persists for more than 72 hours, discontinue use and consult a doctor. If solution changes color or becomes cloudy, do not use. Keep this and all drugs out of the reach of children. In case of accidental ingestion, seek professional assistance or contact a poison control center immediately.
SIDE EFFECTS
When used as directed, no significant side effects are anticipated. Ocular irritation and allergic reactions have been reported occasionally.
DIRECTIONS
1 drop in the affected eye(s) as needed or as directed.
HOW SUPPLIED
LIQUIFILM® Tears is available in 15 mL plastic dropper bottles.
Note: Not for use while wearing soft contact lenses. Store between 15°- 25°C. Further information can be obtained from the doctor or the pharmacist.
